interiors and decor

R.N.I. No. MAHENG/2011/40533

Vol. No.14 • Issue No. 3 • Mumbai

December 2024 - January 2025 • ₹ 200

Features:
+ Modern Kitchen
+ Doors and Windows

Signature SPACES

SPACES THAT SPEAK:

Philosophy

OF TIMELESS DESIGN

What are the key elements that define a space as uniquely yours?

A space becomes unique when it achieves a balance between functionality, storytelling, and emotion. A good design should always reflect a narrative tailored to the vision of the space's users while rooted in cultural or contextual relevance. In our projects, materials are chosen carefully, often blending local influences with contemporary finishes to ground the design in its environment. Attention to detail, such as custom furniture or curated art pieces, adds a personal touch. For instance, in the Gulshan Experience Centre, the integration of biophilic features, such as water bodies and indoor greenery, adds a sense of tranquillity, while the soft, rounded furnishings reflect nature's forms. This lends character to the space, making it functional yet luxurious and welcoming.

Vineeta Singhania Sharma Founder Partner and Principal Architect Confluence

Vineeta Singhania Sharma, Founder Partner and Principal Architect at Confluence, shares her visionary approach to creating signature spaces that blend functionality, cultural relevance, and storytelling. With over 25 years of experience, she emphasizes sustainability, innovative materials, and timeless design principles, crafting spaces that are not only memorable but also deeply meaningful.
